

RUFORUM PRE-AGM EVENT

TRAINING WEBINAR ON

Bioinformatics for Research and Institutional Development

1st -5th September 2025 | 2:00PM-5:00PM EAT

INSTRUCTORS

Dr. Stephen Obol Opiyo
Senior Data Scientist/
Bioinformatician
Patira Data Science, USA

Peace Aber
Data Scientist/Biostatistician
Patira Data Science, Uganda

Module Overview

This course explores essential themes in omics data generation, biological databases, data formats, analysis pipelines, and integration with visual and omics/phenotypic data. It also introduces participants to practical tools (e.g., BLAST, InterProScan) and new technologies for interpreting complex datasets. The course concludes with sessions on ethics, FAIR principles, and planning for sustainable institutional bioinformatics capacity.

Open to former IFS grantees from Africa and across the world
