

Strengthening Academic Collaboration through the FAO elearning Academy

Join this webinar organized by FAO and RUFORUM to explore how universities can integrate FAO elearning Academy resources into academic programmes and strengthen collaboration in areas such as forestry, food security, nutrition and agrifood systems transformation.

The [FAO elearning Academy](#) provides *free, multilingual and certified e-learning courses* supporting capacity development for professionals, students and institutions worldwide. With nearly 2 million learners globally, the Academy contributes to strengthening competencies for the transformation of agrifood systems.

Why participate?

- Discover free, multilingual and certified FAO online courses
- Explore opportunities to integrate FAO learning resources into university curricula
- Learn about the [Forest Monitoring for Climate Action](#) learning series and additional forestry-related learning opportunities
- Exchange experiences and explore collaboration opportunities with universities, academia networks and FAO experts

Date: 10 June 2026

Time: 14:00 - 15:30 PM (GMT+3) / 13:00 – 14:30 (CEST)
